Sustainability

MORE GREEN/RECYCLED MATERIAL

Degradable material

Deyork apply degradable material as like Ariaprene & Anti-mold sticker of IM.

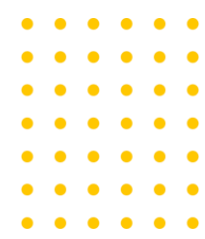

Recycled material

Deyork is devoted to working with suppliers who can make recycled or sustainable materials, like fabric made by recycling plastic or plant fiber.

Sustainable packaging

We got many options for recycling packaging, like woven labels made by recycling fiber, head cards made from recycling paper, and also color box print by soy ink.

CERTIFICATION FROM TRIM/PACKAGING SUPPLIER

Woven Label

Annex 6 for baby articles.

The certified articles fulfil requirements of Annex XVII of REACH (incl. the use of azo colourants, nickel release, etc.), the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass) and of the Chinese standard GB 18401-2010 (labelling requirements were not verified).

Products: See attached enclosure

Product Category: 2.10 Printing pastes and inks with and without colourants

The above captioned products can be used for the production of human-ecological optimized textiles & leathers. The combined results of the reports mentioned above reveal that there is no harmful effect on the human and environmental health of the textiles & leathers treated/finished with the certified products. The products fulfill requirements of Annex XVII of REACH (incl. the use of azo colourants, chromium (VI), nickel release, etc.). The evaluation was based on the test methods and requirements of the ECO PASSPORT by OEKO-TEX® that were in force at the time of evaluation. ZDHC MRSL 2.0 Conformance Level 1 is achieved for certified products without restrictions.
